PROFESSIONAL SUMMARY

Computer Science Engineering graduate with expertise in Artificial Intelligence, Machine Learning, Generative AI, and Data Science. Experienced in developing AI solutions using Python, LLMs, RAG, Computer Vision, and Data Analytics through industry projects and practical applications.

EXPERIENCE

AI/ML Data Science Intern | Vision Astraa EV Academy

Bangalore, Karnataka

Feb 2026 – May 2026

- Applied machine learning and data science techniques to real-world EV telemetry datasets across a 3-month structured internship programme.
- Performed exploratory data analysis (EDA), data preprocessing, data cleaning, data wrangling, and feature engineering on structured EV telemetry data using Python, Pandas, and NumPy.
- Built and evaluated predictive models (regression, classification) using Scikit-learn; applied model training, model evaluation, and hyperparameter tuning to improve prediction accuracy.
- Created data visualization reports and dashboards using Power BI and Matplotlib, and contributed to ETL and data pipeline workflows for automated ingestion, producing KPI reporting and business intelligence summaries for EV analytics stakeholders.

TECHNICAL SKILLS

Programming Languages:

Python, SQL, HTML, CSS, JavaScript

Artificial Intelligence:

Machine Learning, Deep Learning, Generative AI, Large Language Models (LLMs), Computer Vision, Natural Language Processing (NLP), Retrieval-Augmented Generation (RAG), Prompt Engineering, Multimodal AI, Vision-Language Models (VLMs), Agentic AI

LLM Engineering:

Ollama, Phi-3, LLaVA, FAISS, Sentence-Transformers, Vector Embeddings, Semantic Retrieval, Context-Aware Search, Conversational AI

Data Science & Analytics:

Exploratory Data Analysis (EDA), Data Preprocessing, Data Wrangling, Feature Engineering, Statistical Analysis, Predictive Modelling, Regression, Classification, ETL, Data Pipelines, Dashboard Development, Data Visualization, Business Intelligence, Power BI

Frameworks & Libraries: Flask, FastAPI, REST APIs, Scikit-learn, Pandas, NumPy, OpenCV, Matplotlib, Seaborn

Development & Tools: Git, GitHub, Jupyter Notebook, Google Colab, VS Code, Conda

KEY PROJECTS

EV AI Diagnostic Platform | Multimodal AI Copilot [GitHub](#) Python, Flask, Ollama, Phi-3, LLaVA, FAISS, Sentence-Transformers, OpenCV

- Designed and deployed a production-grade Multimodal AI Diagnostic Copilot integrating LLMs, RAG, Computer Vision, Telemetry Analytics, and Conversational AI, capable of answering EV engineering queries across 5+ diagnostic domains (battery, charging, range, thermal, performance).
- Built embeddings and semantic search pipelines using FAISS, Sentence-Transformers, and Vector Databases for context-aware EV knowledge retrieval and accurate question answering over technical manuals.
- Integrated Phi-3 and LLaVA vision-language models with Prompt Engineering and AI Orchestration to enable multimodal reasoning, image analysis, and Agentic AI workflows with tool use and function calling patterns.
- Designed modular workflow automation pipelines — battery diagnostics, telemetry interpretation, charging analysis, range prediction, and engineering calculations — demonstrating multi-agent and AI agent architecture.
- Deployed a Flask-based REST API with a multimodal chat interface (text + image), scalable model inference, and GitHub deployment, evolving the system from a RAG chatbot into a complete Agentic AI Copilot.

EDUCATION

HKBK College of Engineering

Bangalore, Karnataka | 2022 – 2026

Bachelor of Engineering – Computer Science | Visvesvaraya Technological University (VTU)

Infant Jesus PU College

Raichur, Karnataka | 2019 – 2021

Pre-University Science (PCMB)

CERTIFICATIONS & TRAINING

Data Analytics Job Simulation — Deloitte Australia (via Forage) | July 2025 [Link](#)

- Completed practical tasks in Data Analysis, Statistical Analysis, Data Visualization, and Forensic Technology in a simulated Deloitte consulting environment, applying data storytelling and business intelligence skills to real-world scenarios.

AI/ML for EV — Internship Completion — Vision Astraa EV Academy (VTU Affiliated) | Feb – May 2026 [Link](#)

- Certified completion of a hands-on AI/ML project covering machine learning, data science, predictive analytics, and EV telemetry analysis.

ADDITIONAL INFORMATION

Soft Skills: Communication, Team Collaboration, Adaptability, Problem-Solving, Critical Thinking, Self-directed Learning

Languages: Kannada (Native), English (Professional), Telugu (Fluent), Hindi (Fluent)
